

# Easy Series PLC

## High performance, compact, EtherCAT-enabled PLC

- Compact footprint
- A complete product range – from the simplest to the most complex motion control capable PLC
- PLCopen compliant axis control
- Simulation mode for offline debugging
- Real-time fieldbus

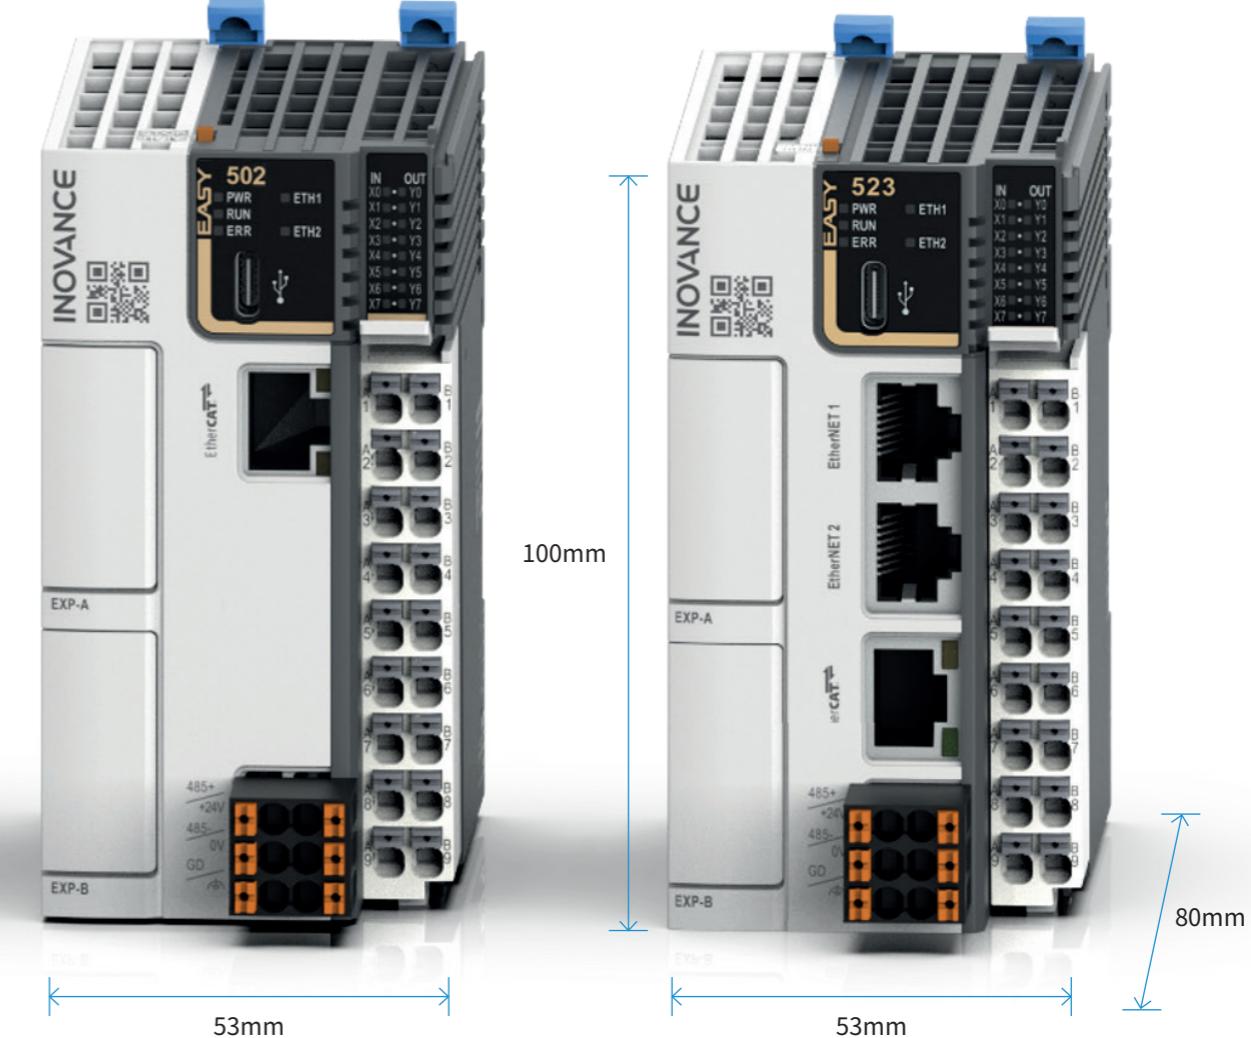

## Easy series PLC: a comprehensive product range

Easy300

Easy500

**Ultra compact CPU**  
Easy301  
RS232 + RS485

**General CPU**  
Easy302  
RS232 + RS485

**CPU with Ethernet**  
Easy320  
Dual Ethernet + RS485

**Motion control CPU**  
Easy502  
EtherCAT + RS485

**Motion control CPU with Ethernet**  
Easy523 Dual Ethernet  
+ EtherCAT + RS485

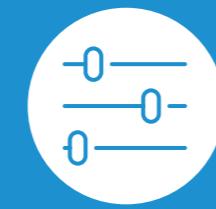

#### EASY programming

Customized FB/FC - self defined variable programming assistant

#### EASY assembly & wiring

Easy to add and/or replace modules.  
Plug in wires directly with spring clamp terminals

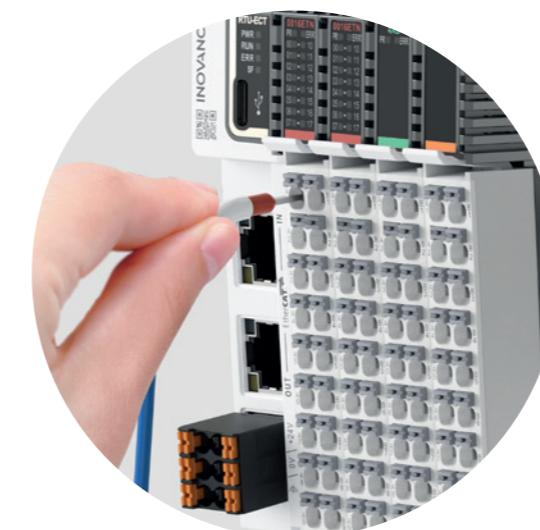

#### EASY commissioning

Auto device scanning, easy configuration, servo debug without programming, offline simulation

The type-C port works as a programming port allowing support programs, uploading/downloading and debugging.

Easy wiring with spring clamp terminals.

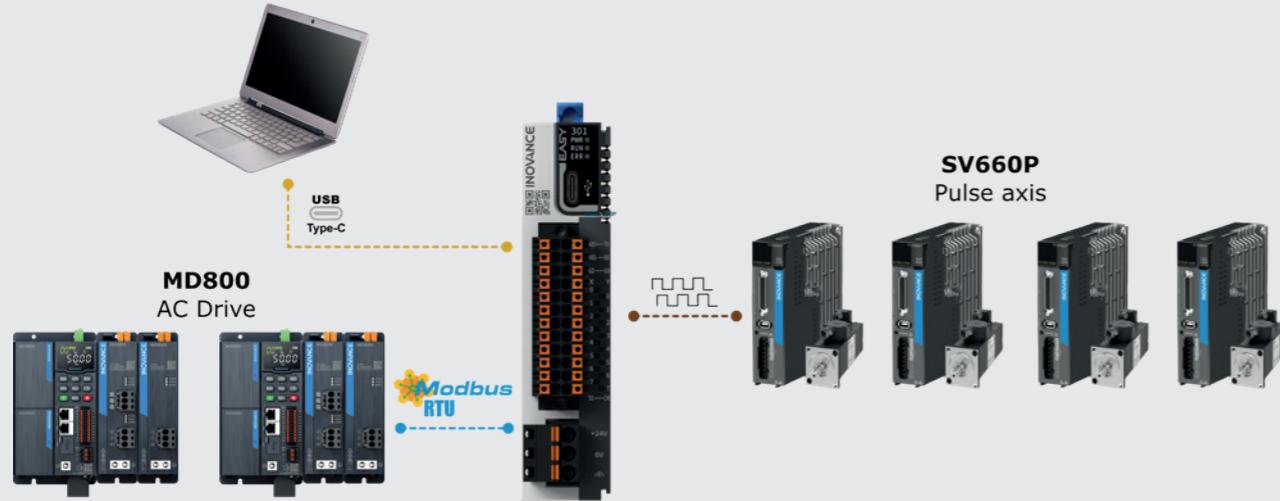

Slim and compact I/O expansion modules (GL20). Easy to plug in and remove for fast replacement.

# Scalable system architecture

## Multiple configurations

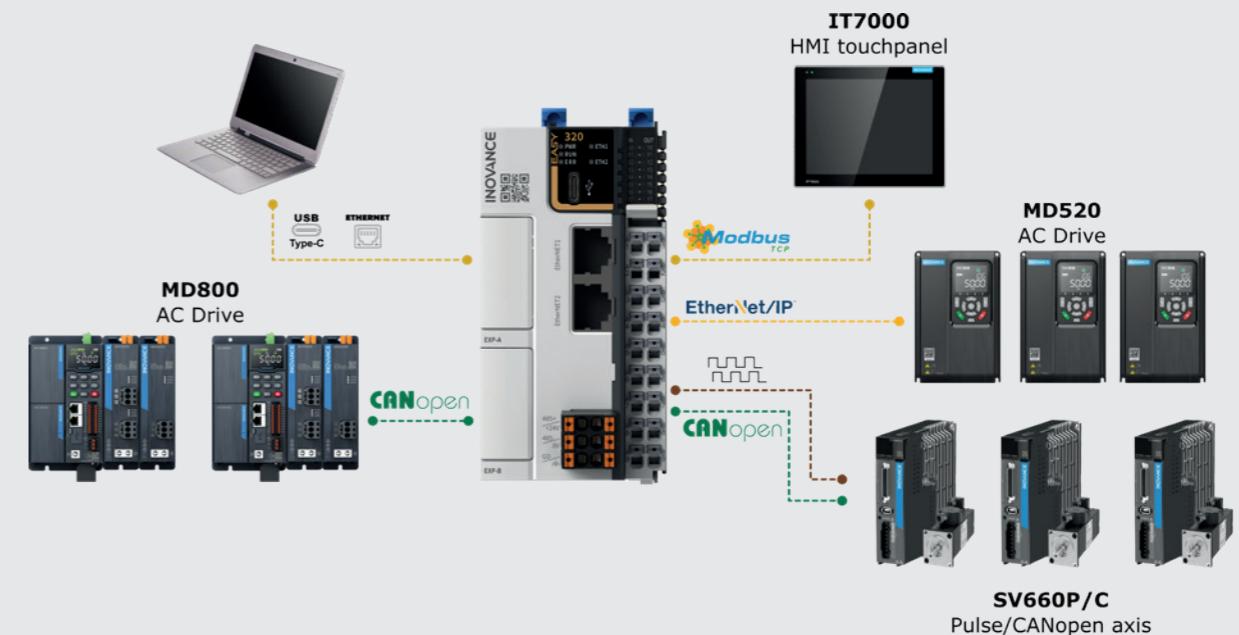

### Easy301

Cost effective architecture using Modbus RTU communication and/or pulses to control the drives.

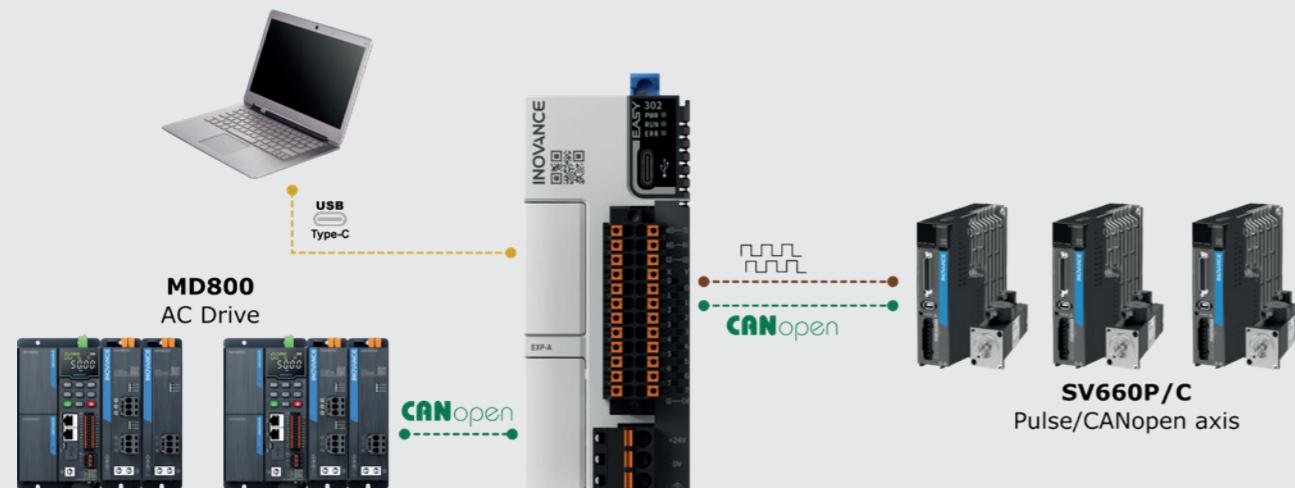

### Easy320

Multiprotocol architecture using Ethernet/IP, CANopen communication and/or pulses to control the drives, and Modbus TCP with the HMI touchpanel

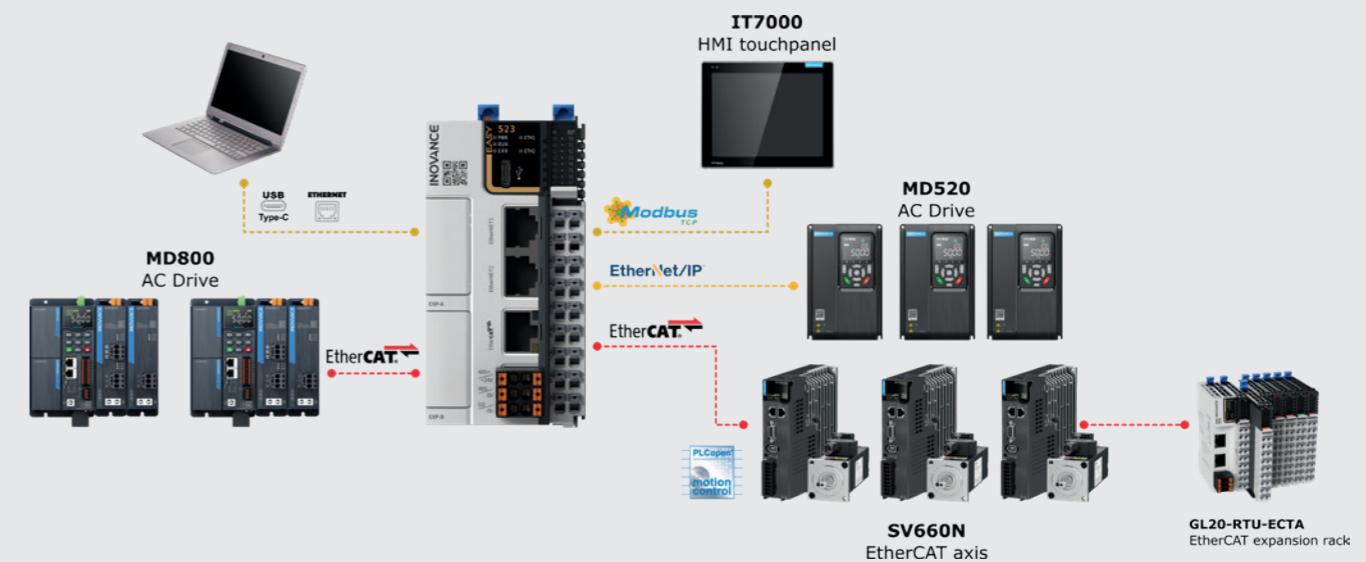

### Easy302

Flexible architecture using CANopen communication and/or pulses to control the drives.

### Easy523

Powerful motion control architecture using realtime EtherCAT communication and Ethernet/IP to control the drives, and Modbus TCP with the HMI touchpanel

# Specifications

## GE20 Expansion cards

Expansion slot A

Expansion slot B

### Communications capabilities

- RS485 connection - up to 31 slaves
- CANopen - up to 62 slaves
- CANlink - up to 62 slaves
- Modbus TCP - up to 32 slaves (working as client/master)
- Modbus TCP - up to 16 masters (working as server/slave)
- Up to 3 serial ports (RS232/485) - 1 onboard and 2 GE20 expansion cards

Please note: GE20 expansion cards are not applicable to Easy301 CPU.

| Product appearance | Expansion card | Product code                                 | Description | Slot A | Slot B |
|--------------------|----------------|--|-------------|--------|--------|
| GE20-4DO-TN        | 01480033       | 4 channel sink outputs                       |             |        |        |

| In-built lithium battery | CR2302, 3 year life cycle, removable  |

### TF card expansion card

| Material code           | 01480030  |
|-------------------------|---|
| Appearance              |  |
| Model                   | GE20-TF   |
| Description             | TF card extension card  |
| Slot                    | B   |
| IP level                | IP20  |
| Operational temperature | -20 °C ~ 55 °C  |
| SD card capacity        | NOT over 32 G   |
| SD card type            | TransFlash (Micro SD)   |

# Expansion capability

## GL20 expansion modules

**Great performance with ultra fast response**  
Microsecond level response | Synchronous control

**Compact size and wiring without tools**  
Compact size | Fast installation | Fast replacement

**Stable and reliable design**  
Stable connection | Gold plating process | Safety and reliability

**Many variants to suit different systems**  
Multiple protocols | Many variants

**NEW generation  
distributed I/O system**

GL20 slim and compact I/O modules

Applicable to either bus coupler or CPU

# Expansion capability

## GL20 expansion modules

### Compact Size

Saves 2/3 of the space in the cabinet compared to the previous generation product – GL10

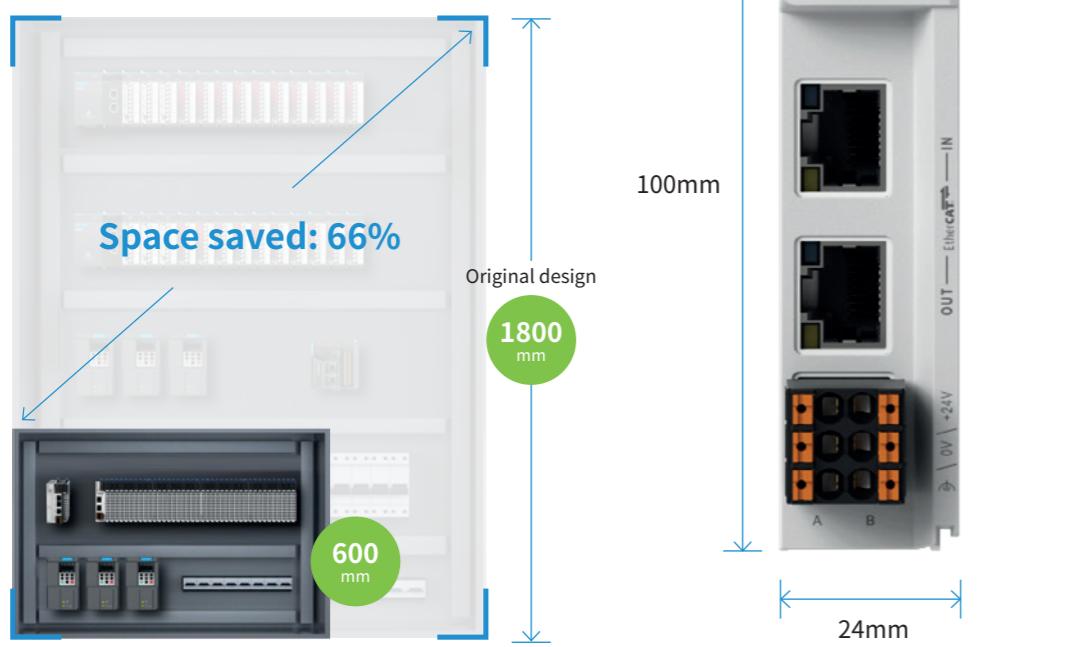

## GL20 Series

### Designed for compact cabinets

Thickness reduced to **12mm**

**2/3 cabinet space saved**

Space utilisation maximised

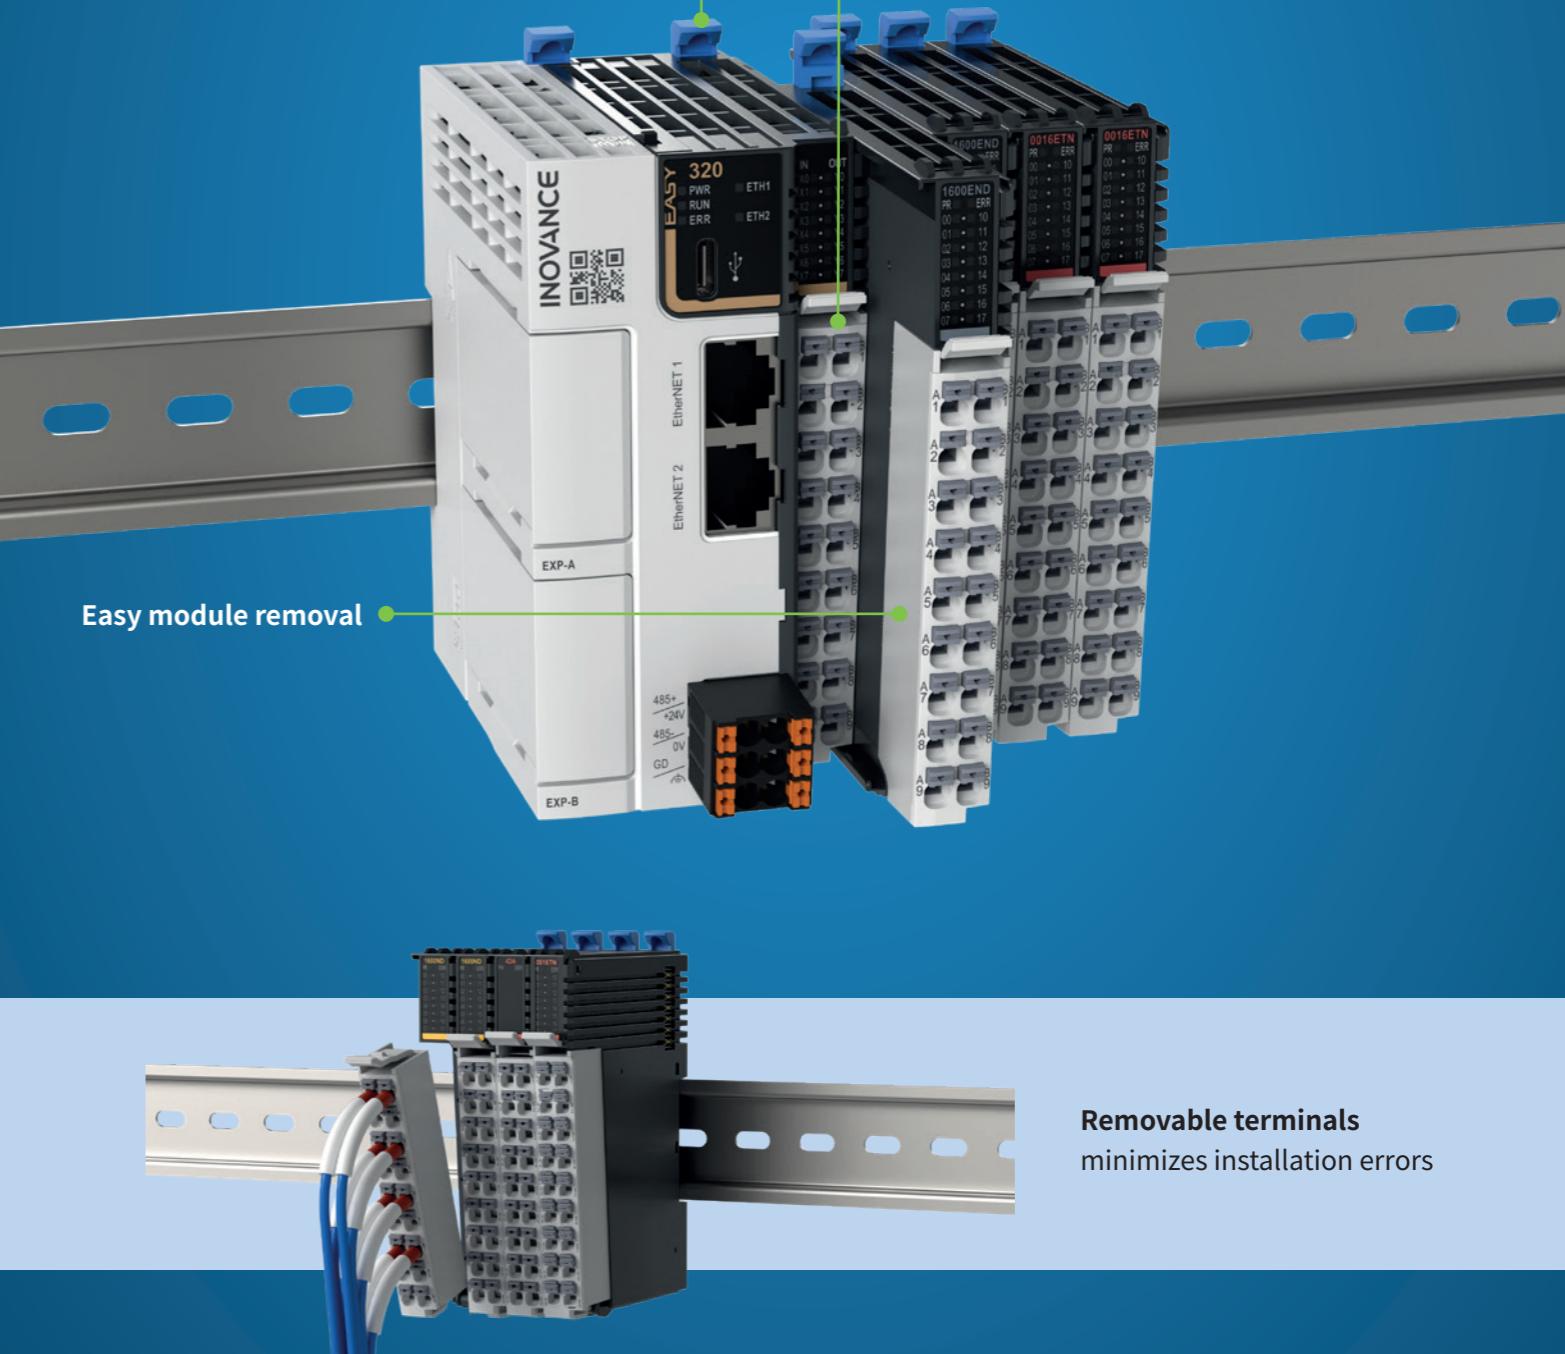

### Compact design and tool-free wiring

Simple lever system allows easy removal of individual modules from the DIN rail

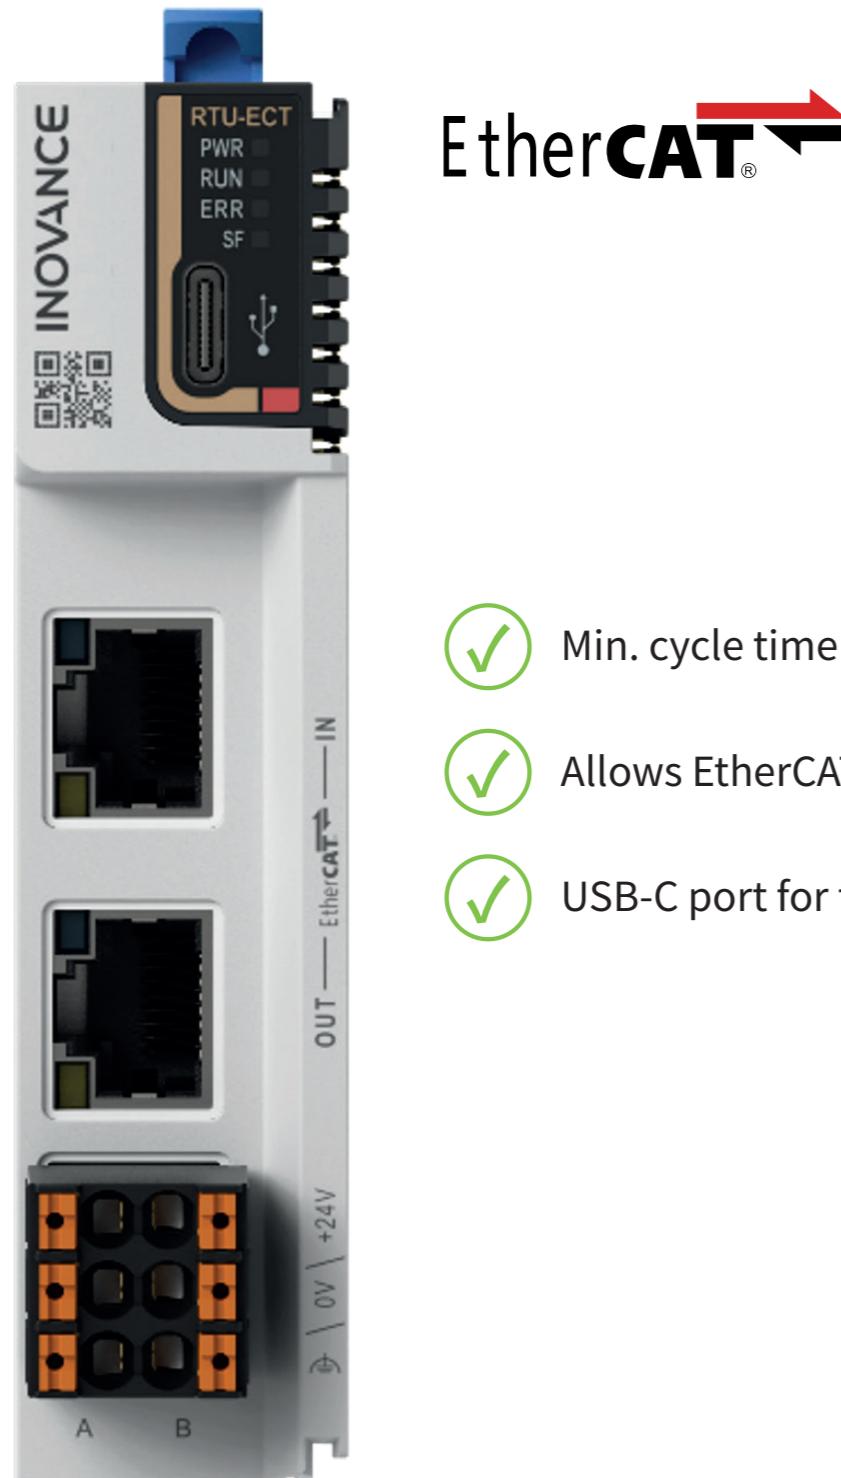

Easy wiring with spring-type terminals, with large **1.5mm<sup>2</sup>** apertures

Removable terminals  
minimizes installation errors

## Expansion capability

### GL20 modules – EtherCAT bus coupler

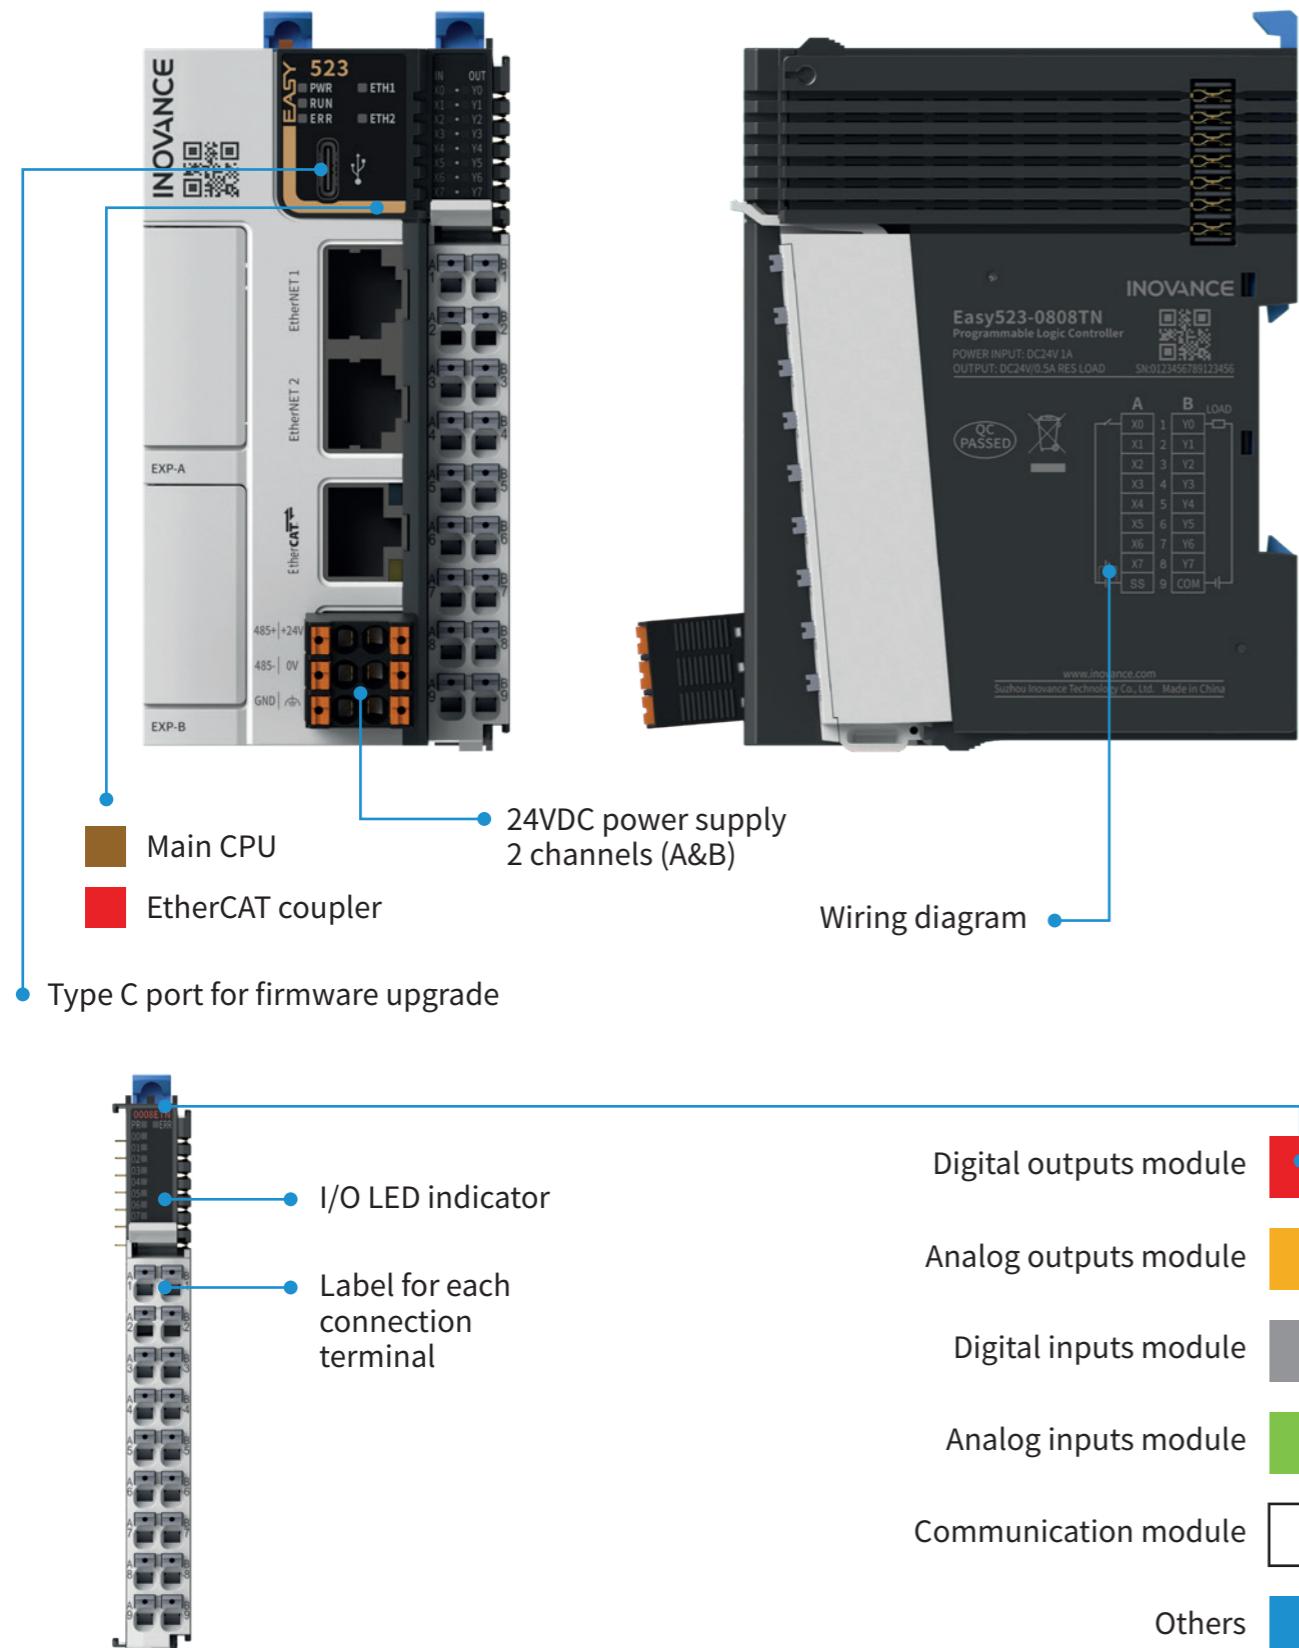

- ✓ Min. cycle time of 125 microseconds
- ✓ Allows EtherCAT alias configuration
- ✓ USB-C port for firmware upgrade

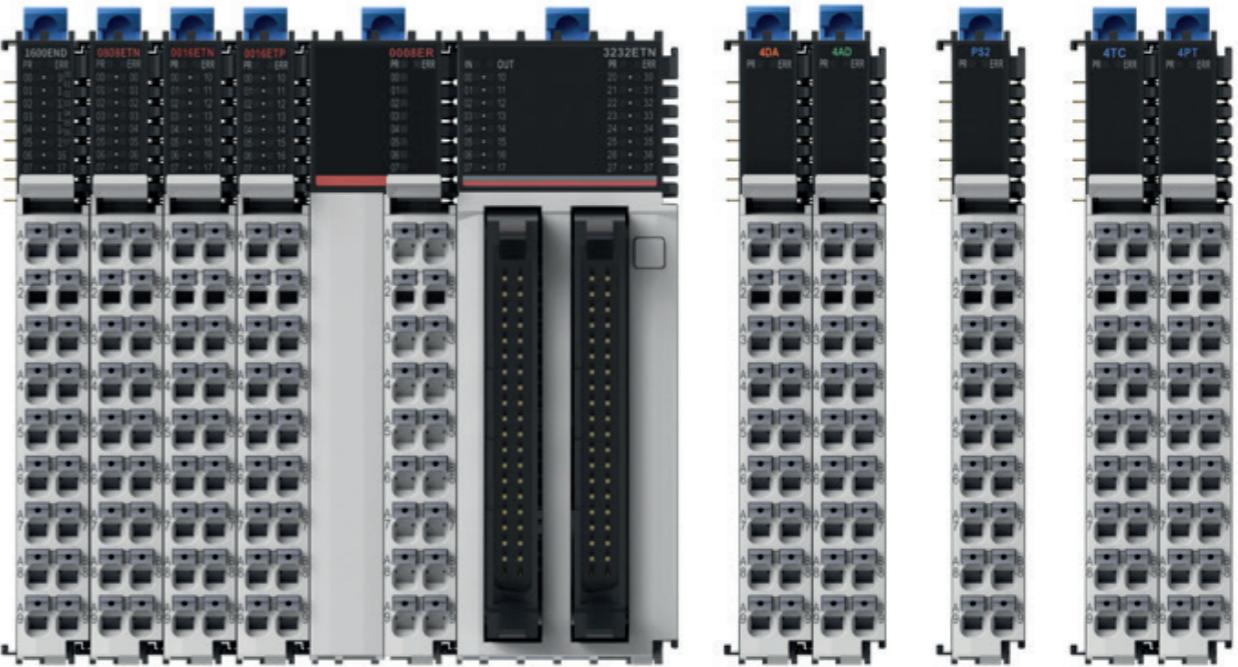

| Specification                    | Description  |
|----------------------------------|--|
| Dimensions (WxHxD:mm)            | 24×100×83  |
| Max. number of expansion modules | 16   |
| Protection                       | Over current/ reverse connection protection  |
| Operating ambient temperature    | -20~55°C   |
| Operating ambient humidity       | Less than 95% and no condensation  |
| IP rating                        | IP20   |
| Power supply                     | +24 VDC  |
| Process data                     | Up to 1,024 input bytes and 1,024 output bytes   |
| Mailbox size                     | Up to 256 input bytes and 256 output bytes   |
| Alias                            | It admits the configuration of EtherCAT aliases through the master. Expansion modules connected behind ECT do not support alias access and configuration. Range: 1~65535 |
| EtherCAT cycle                   | Min. cycle time of 125 microseconds  |
| EtherCAT port                    | 2 x RJ45   |
| Communication rate               | 100 M, full duplex   |
| Transmission distance            | 100 meters   |
| Firmware update port             | USB-C port for firmware upgrade  |

# Expansion capability

## GL20 expansion modules

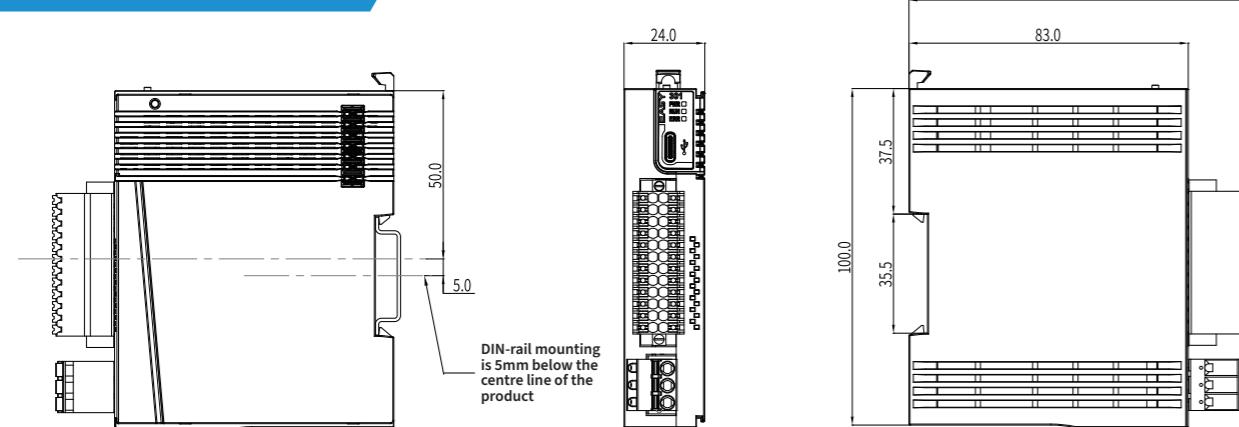

Please note: the colour codes specify the module type

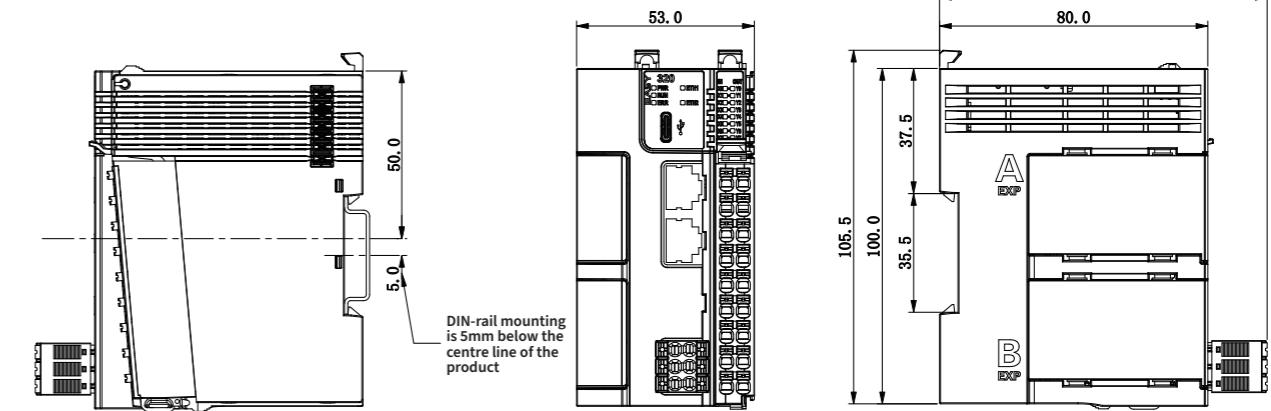

| Type of module        | Model               | Product code | Description   |
|-----------------------|---------------------|--------------|---|
| Bus coupler           | GL20-RTU-ECT        | 1440286      | EtherCAT slave bus coupler. Up to 16 expansion modules can be added   |
|                       | GL20-RTU-PN         | 1440289      | PROFINET slave bus coupler. Up to 16 expansion modules can be added   |
| Digital inputs        | GL20-1600END        | 1440291      | 16 x source (PNP)/sink (NPN) digital inputs module. Input filter from 0.25 ms to 32 ms  |
|                       | GL20-0800END        | 1440381      | 8 x source (PNP)/sink (NPN) digital inputs module. Input filter from 0.25 ms to 32 ms   |
|                       | GL20-3200END-M      | 1440378      | 32 x source (PNP)/sink (NPN) digital inputs module. Input filter from 0.25 ms to 32 ms  |
| Digital outputs       | GL20-0008ETP        | 1440380      | 8 x source (PNP) transistor outputs module. Response time 100 µs  |
|                       | GL20-0008ETN        | 1440379      | 8 x sink (NPN) transistor outputs module. Response time 100 µs  |
|                       | GL20-0016ETP        | 1440292      | 16 x source (PNP) transistor outputs module. Response time 100 µs   |
|                       | GL20-0016ETN        | 1440293      | 16 x sink (NPN) transistor outputs module. Response time 100 µs   |
|                       | GL20-0032ETN-M      | 1440377      | 32 x sink (NPN) transistor outputs module. Response time 100 µs   |
| Relay outputs         | GL20-0008ER         | 1440334      | 8 x relay outputs module. Response time 15 ms   |
| Digital I/Os          | GL20-0808ETN        | 1440339      | 8 x source (PNP)/sink (NPN) digital inputs and 8 x sink (NPN) transistor outputs module. Response time 100 µs. Input filter from 0.25 ms to 32 ms   |
|                       | GL20-3232ETN-M      | 1440290      | 32 x source (PNP)/sink (NPN) digital inputs and 32 x sink (NPN) transistor outputs module. Response time 100 µs. Input filter from 0.25 ms to 32 ms |
| Analog inputs         | GL20-4AD            | 1440288      | 4 x analog inputs module (resolution 16 bits, sampling time 250 µs)   |
| Analog outputs        | GL20-4DA            | 1440287      | 4 x analog outputs module (resolution 16 bits, sampling time 250 µs)  |
| Temperature detection | GL20-4PT            | 1440337      | 4 x channel thermal resistance inputs temperature detection module (Pt100, Pt500, Pt1000, Cu100, KTY84, NTC5K, NTC10K)                              |
|                       | GL20-4TC            | 1440338      | 4 x channel thermocouple inputs temperature detection module (thermocouple type: B,E,N,J,K,R,S,T)   |
| Accessories           | XA3210A-40-L0.5M-01 | 15310167     | I/O extension cable - 0.5 m length with 2 FCN connectors (required for GL20-3200END/GL20-0032ETN-M/GL20-3232ETN)                                    |
|                       | XA3210A-40-L2M-01   | 15310166     | I/O extension cable - 2 m length with 2 FCN connectors (required for GL20-3200END/GL20-0032ETN-M/GL20-3232ETN)                                      |
|                       | T024-K              | 15020452     | 40PIN MIL screw terminal block (Required for GL20-3200END/GL20-0032ETN-M/GL20-3232ETN)  |

# Dimensions
